Here is a brief overview of what is covered during this very busy hands on full 2-days of AR15/

M16 Armoring:

- History of the Weapon
- Cycles of Function
- General Disassembly & Assembly
- Identification of Common Problems and Parts
- Nomenclature
- Identification of Group Components
- Semi, Burst, and Full Auto Parts and Conversions
- Complete Armoring Disassembly / Assembly
- Barrel Replacement
- Cleaning and Maintenance
- Sight and Distance Considerations
- Ballistic Issues
- Barrel Twist, Length, and Choices
- Gas System
- Parts Interchangeability, including Brands
- Headspace
- Firing Pin Protrusion
- Trigger Jobs
- Chamber Inspection and Polishing
- Accessories and Customizing
- Tool Options and Selection
- Iron Sights (A1/A2/A3) Disassembly/Reassembly
- Optics
- SOP/MOD Accessories and Additions

All tools, manuals, and anything else that is necessary is supplied.

We will provide rifles with prior arrangements so we know how many to bring.

We prefer that students bring their own weapon systems to get familiar with their own configuration and modifications, plus this allows the time for a good thorough cleaning and inspection, plus we can replace and repair any parts necessary. This is a very intensive course that we cover in 2-days, so be prepared to get a lot of hands on knowledge. All that successfully complete this course will receive Armorer's Certification, and will also have an opportunity to purchase a SLR15 rifle at a special Armorer's rate.

Student Materials (Minimum Suggestion)

Bring your own weapon system.

Cost for the two day AR15 M16 Armorer Course is \$350 paid to Defensive Edge.
